TotalEnergies EP Bulgaria B.V.

PROPOSAL FOR TRAINEESHIP

Who we are:

TotalEnergies is a broad energy company that produces and markets fuels, natural gas and electricity. Our 100,000 employees are committed to better energy that is more affordable, more reliable, cleaner and accessible to as many people as possible. Active in more than 130 countries, our ambition is to become the responsible energy major.

Since July 2012, TotalEnergies – in partnership with OMV Petrom – has held a permit for the prospecting and exploration of oil and gas in Block 1-21 Han Asparuh, in the deep offshore part of the Black Sea. **TotalEnergies EP Bulgaria B.V.** has been the operator of the Block since April 2014 and is responsible for drilling the exploration wells (the “Project”). In this project Total brings its worldwide recognized expertise in deep sea technology, project management and reservoir development and its highest Health, Safety and Environment standards.

TotalEnergies EP Bulgaria is aligned with TotalEnergies' ambition as a world-class player in the energy transition for reinventing the production and use of energy to get to net zero carbon by 2050, together with society, and meeting the climate challenge.

Currently, we are looking to recruit a self-driven, motivated young professional to join our team as Trainee dedicated to carbon footprint assessment, energy transition and ESG (Environmental Social Governance) issues for our activities in Bulgaria.

Scope of work

In close collaboration with the Head of Legal and Corporate Affairs and with the General Manager, to support TEEPBG with the:

- Assessment of the impact of local offshore oil & gas exploration and production on Energy transition in Bulgaria;
- Assessment of the Carbon footprint of the Project and its potential production phase;
- Consolidation and tracking of the CO₂ emissions of the Project and the team (i.e. flights, drilling operations, etc.);
- Analysis of the effect on climate change of replacing coal with gas in Bulgaria and consolidation of the CO₂ benefits of having gas to coal transition with locally produced gas;
- Research on CCS projects and options for Bulgaria;
